70 The projects are expected to qualify for not less than 70% State debt service reimbursement,
71 funding for which is subject to annual appropriation. The projects will be scheduled as such to
72 limit disruption to the education of students, and bonds will be sold only as needed to pay project
73 costs. If the State fully funds the debt service reimbursement program, the average annual debt
74 service payable by the Borough after State reimbursement, is estimated to be \$353,569. This
75 amount of debt service may require an additional annual property tax levy of \$84 per \$250,000
76 of assessed value, or its equivalent. This example of a property tax levy is provided for
77 illustrative purposes only. The bonds shall be secured by a pledge of the full faith and credit of
78 the Borough (Ordinance No. FY2015-02).
